

ET Series Transformers

The ET Series are a commercial quality low insertion loss 70/25 volt transformer that can be used with 8 Ohms loads. These multi-tap transformers have standard mounting holes to fit most speakers.

The ET10T is a premium transformer with easy to use screw terminals.

PRODUCT SPECIFICATIONS:**ET5S - Commercial Quality**

Size - 5 watt

Primary voltage - 70/25v

Frequency response - 60Hz-12kHz

Primary taps in watts 70v - .125, .31, .62, 1.25, 2.5, 5
25v - .31, .62, 1.25, 2.5,

Secondary impedance - 8 Ohms

Insertion loss - 1.5dB

Mounting holes - 2 3/8"

PRODUCT SPECIFICATIONS:**ET10 - Premium Quality**

Size - 10 watt

Primary voltage - 70/25v

Frequency response - 60Hz-20kHz

Primary taps in watts 70v - .31, .62, 1.25, 2.5, 5, 10
25v - .31, .62, 1.25, 2.5, 5, 10

Secondary impedance - 8 Ohms

Insertion loss - 1.00dB

Mounting holes - 2 3/8"

PRODUCT SPECIFICATIONS:**ET10T - Commercial Quality**

Size - 10 watt

Primary voltage - 70/25v

Frequency response - 60Hz-15kHz

Primary taps in watts 70v - .25, .5, 1, 2, 4, 8, 10
25v - .125, .25, .5, 1, 1CT

Secondary impedance - 8 Ohms

Insertion loss - 1.3dB

Mounting holes - 2 3/8"

PRODUCT SPECIFICATIONS:**ET20/70 - Premium Quality**

Size - 20 watt

Primary voltage - 70v

Frequency response - 40H-20kHz

Primary taps in watts 70v - 2.5, .5, 10, 15, 20
25v - N/A

Secondary impedance - 8/4 Ohms

Insertion loss - <1dB

Mounting holes - 2 3/8"
