

8" Premium Coaxial Loudspeaker

EPCX801 / EPCX802

These well-constructed coaxial devices are best suited for high quality background music applications. Intended to deliver a very clear, natural and accurate voice reproduction of program material when used for paging systems.

The powerful 20oz motor assembly and polymer cone of the EPCX802, coupled with the neodymium tweeter magnet, make it a perfect choice for foreground music. Both these products are available with a wide range of transformer and baffle assembly options.
