

FEATURES

- ◆ Rugged construction
- ◆ 10oz. ceramic magnet & 1" voice coil
- ◆ Pre-punched holes for mounting a distribution transformer

APPLICATIONS

- ◆ Office buildings
- ◆ Hotel lobbies
- ◆ Retail buildings
- ◆ Restaurants

DESCRIPTION

The E810CW speaker offers rugged construction, trouble free operation, with excellent sound reproduction. The E810CW is designed for commercial applications, when extended frequency response is required for more demanding program music. The E810CW incorporates a 10oz. ceramic magnet and a one inch voice coil, ensuring accurate reproduction on paging and background music. May be ordered with a choice of 5 or 10 watt transformers. Available with round, square or torsional baffles as well as a variety of corresponding back boxes.
