

# EBB8RF7D

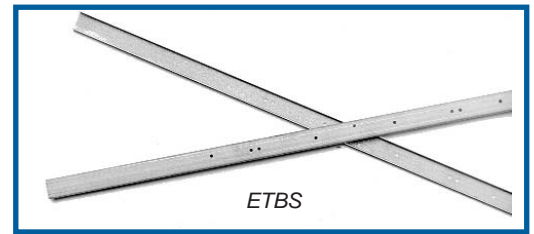

## 8" ROUND FLUSH MOUNT BACK BOXES

### FEATURES

- ◆ Rust resistant 23 gauge electro-plated steel
- ◆ Inside coated with special damping material to eliminate mechanical resonance
- ◆ Adjustable mounting clips
- ◆ Accomodates regular or torsion baffles

### APPLICATIONS

- ◆ Office Buildings
- ◆ Hotel Lobbies
- ◆ Retail Buildings
- ◆ Restaurants

### DESCRIPTION

Enforcer’s EBB8RF7D is a round flush mount metal backbox used to mount the standard ECB8R baffle, the torsional baffle ECB8RT and the premium torsional baffles EPB8RTB (black) EPB8RTW (white). It’s made of rust resistant heavy gauge electro-plated steel. This deeper design, along with coated interior, provides improved audio performance. The adjustable mounting clips allow for perfect alignment. T-bar supports (ETBS) can be used to aid in flush mounting to the ceiling tile.
