- ◆ Neodymium dome tweeter
- ◆ Power selector knob
- ◆ Optional 8 ohm setting included
- ◆ Removable vent plug for extended frequency response
- ◆ Terminal strip terminated

APPLICATIONS

- ◆ Office buildings
- ◆ Hotel lobbies
- ◆ Department Stores
- ◆ Restaurants

DESCRIPTION

The Enforcer EPCS502B is designed to meet the needs of paging, background and foreground music when full range sound quality is desired. The EPCS502B uses a high compliance 5.5 inch Polypropylene woofer, a 10 oz ceramic magnet and foam edge surround providing smooth low frequency response. The EPCS502B has a removable fire rated vent to extend low frequency response for return air plenum applications. The EPCS502B also incorporates a Neodymium dome tweeter which produces crystal clear high frequency program material.

The EPCS502B includes a white steel grill, and a steel back box, complete with a power selector knob with 1, 1.5, 2.5, 5 and 10 watt 70 volt tap settings. There is also an 8 ohm setting.
