

STAND ALONE METAL RACKS

View of cable claw

Enforcer ER stand alone racks are available in five sizes. The sides are fabricated using 16 gauge CRS and incorporate top and bottom ventilation blanks for maximum heat dissipation. The top and bottom are built of 14 gauge CRS. The rack is fitted with 12 gauge mounting rails tapped 10-32 on universal EIA hole spacing. Large cable entry is available through the bottom. Our unique built in raceway and cable claw allows neater cable distribution and installation. Large base leveling feet, locking back door and a copper grounding lug are all standard on these racks. Locking front doors and swivel casters are optional. The black powder coat finish insures durability and scratch resistance.

Model	Front / Rear Vertical Panel Space	Units	Height	Width	Depth	Optional Front Door	Additional Rear Rail (Pairs)
ER21	36 7/8"	21	44 11/32"	22.5"	21.5"	SD21	RRE21
ER24	42 1/8"	24	49 19/32"	22.5"	21.5"	SD24	RRE24
ER35	61 3/8"	35	68 27/32"	22.5"	21.5"	SD35	RRE35
