

ENFORCER

4" Premium Loudspeaker

EPCX401

4 Inch, 10.0 oz.

The EPCX401 is a full range, low distortion, transducer. The EPCX401's wide band-width make it an excellent choice where a small speaker is required. The EPCX401 can be used for foreground, background or sound masking applications. High efficiency and excellent speech and music intelligibility make this speaker suitable for a wide range of applications. The EPCX401 has a bracket for the mounting of a distribution transformer.
