

Features

- u ABS plastic weatherproof construction
- u Suitable for outdoor/indoor use
- u Variable impedance selector
- u Highly intelligible

Applications

- u Industrial plants, warehouses
- u Recreational areas
- u Schools
- u Construction sites

Description

The Enforcer EPH15 is a highly intelligible, reentrant type horn ideally suited for one way and two way sound and communication systems. The sturdy, ABS plastic, weatherproof construction of the EPH15 makes it suitable for indoor and outdoor use in industrial plants, warehouses, schools, construction sites, transportation terminals and recreational areas.

The EPH15 has a built-in, variable impedance selector switch for matching the horn power requirements to a 25V or 70V constant-voltage line as well as an 8 ohm impedance.

The EPH15 is made of a beige ABS plastic and is engineered for simple installation.

Specifications

Power Rating (RMS)	16 watts continuous
Frequency Response	325Hz to 13kHz
Impedance	25/70 volts or 8 ohms
Sound Pressure Level	107dB @ 1 watt, 1 meter
Dispersion	110° horizontal x 70° vertical
Dimensions	opening: 20cm (8") wide x 11.25cm (4.5") high and 23.75cm (9.5") deep
Shipping Weight	1.14 Kgs (3.1 lbs)
Construction	beige ABS plastic
Impedance Selector Switch Settings	25V @ 8, 4, 2, 1, 0.5 watts 70V @ 16, 8, 4, 2, 1 watts
Warranty	3 year warranty
